## Post Conference International Study Tour

**OzPac Gold 2001 (326/01)** - Immediately following the NewGenGold Conference, this tour will visit a representative selection of the ore deposits that have made the Australian gold industry the world force it is today. The tour will comprise two modules, taking in Archaean deposits in Western Australia and the Proterozoic and Phanerozoic ores in northern Australia and the Australian Pacific margin respectively. The tour will visit some of the exciting new projects covered by the conference and older established mines, based on both their commercial and geologic significance. As the program is finalised details will become available at [www.amf.com/tours](http://www.amf.com/tours).
